SERIOUS CHARGE MADE BY CUBAN NEWSPAPER

Says 1897 U. S. Congress Was Bought by Palma

TO ENSURE WAR BEING MADE

Against Spain—Publication of Story Causes a Sensation in Madrid. Purports to Show These Things by Documentary Evidence.

Madrid, March 1.—A sensation has been caused here by the publication of a story credited to the Diario de La Marina, of Havana, which purports to show by documentary evidence that the United States congress was bought in 1897 by Thomas Estrada Palma, to ensure war being declared against Spain. According to the Havana newspaper bonds to the amount of $37,000,000, redeemable when Cuba should become independent were issued in Washington to senators, and a contract exists which contains phrascology like that of the joint resolution of April, 1898, voted by congress.

The article says further that the value of the bonds fell heavily in value, and therefore a new contract was made between Palma and the American senators.

Count Salazar, minister of foreign affairs, has telegraphed to the Spanish representatives at Washington for the fullest information.

New Road is Planned.

Mobile, Ala., March 1.—A new road which is to be built from Gulfport to West Point, Miss., has made application to Governor Vardaman of Mississippi for a charter. The petition for the charter sets out in detail details the route of the road which is proposed to run from Gulfport to West Point, in Clay county. The route of the road is northeasterly from Gulfport, through Harrison county and crossing the Mobile, Jackson and Kansas City railroad at or near Augusta, in Perry county; thence northwesterly to Laurel in Jones county; thence to Paulding in Jasper county. The line then proceeds northwardly through Jasper, Newton, Neshoba, Winston and Oktibbeha counties to West Point. At West Point connections will be made with the Southern railway, the Canton, Aberdeen and Nashville and the Mobile and Ohio lines. This proposition is taken to be an answer by some of the big syndicates interested to the proposed Memphis and Gulf Line.

Head Breaks Hammer Handle.

Augusta, Ga., March 1.—Will [illegible], a negro, was hit squarely on the head with a sledge hammer which was being wielded by a strong blacksmith, and yet he is still living and alive, and is suffering little inconsequence from the blow. The handle of the hammer, though of solid hickory, broke in two, about three inches from the iron. The negro who was hit was not even stunned, although somewhat dazed, and later walked to the hospital to have the wound dressed; and for being a participant in a street brawl, he was arraigned before the recorder and fined. Physicians state that the head of any ordinary man would have been crushed like an eggshell.

Wealthy Woman Found Dead.

City of Mexico, Mch. 1.—Marie Negrete de Guzman, sister of General Pedro Romolu Negrete, was found dead in a room in the poorer quarter of the city Wednesday. Although surrounded by the most squalid furnishings, the authorities on entering the room, found $25,000 in gold and securities belonging to the dead. A bank book showed she had a deposit in Guatemala the sum of $[illegible]. The woman had long been known as a miser. The police are investing the case.

Conflict Indicated.

[illegible]—From advices received here are that

LOCAL OPTION BILL IS SIGNED.

Gov. Comer Signs the Temperance Measure in Alabama.

Montgomery, Ala., March 1.—Among the bills signed by the governor Wednesday was the local option measure, commonly known as the Lovelady bill. It provides that on the application of one-fourth the voters in a county a vote must be ordered on the question of the sale of liquors in saloons or prohibition. In cases where there are dispensaries the vote may be for liquors or against it in dispensaries.

This bill was fought hard in committee and in both houses of the legislature. It makes the county the unit, and is likely to result in many big cities being forced to give up the sale of liquors by being voted down by the counties and the prohibition votes in the cities. Attempts were made in both houses to have the big cities made units, but this was defeated.

There is a local option dispensary bill that is along the same line providing for voting on saloons or dispensaries. None of the dispensaries now running will be disturbed for two years.

Other Bills Signed.

Montgomery, Ala., Mch. 1.—These bill have been signed by Governor Comer, and are now the law of the state:

To amend an act creating a separate school district of Midway.

To provide for dispensaries in Trop and Brundidge, the only places of selling liquors in Pike county.

To provide a road law for Marengo county.

To provide for a dispensary at Oxford.

To amend road laws of Talladega county and enact new ones.

To provide for maintenance of roads and bridges in St. Clair county and provide a special tax therefor.

To establish a dispensary at Thomaston.

To provide for payment of court house warrants in Marion county.

To make up roads in Monroe county.

To provide for working roads in Tuscaloosa county.

To provide for commissioners of Coffee county holding court at Enterprise.

To further regulate sale of liquors in Fayette county.

To provide against sale of liquors near Mount Joy church, in Winston county.

To provide for official stenographer for Talladega county.

To further regulate the sale of li- Herbert, a confederate pensioner.

To repeal an act preventing sale of liquors at Fitzpatrick, Thompson and Bullock county.

To regulate the trials of misdemeanors in Morgan county.

To regulate the drawing of juries in Jefferson county.

To regulate the sale of liquors in the state. This is the local option bill.

To prohibit the sale of liquors in Fayette county if a majority of the voters speak for prohibition.

To establish a probate office at Enterprise.

Alabama Gives to Jamestown.

Montgomery, Ala., Mch. 1.—The senate committee on finance has agreed to report favorably the bill to appropriate $25,000 to the Jamestown exposition. The $10,000 for a commissioner was not out, that work being placed on the governor. It was also agreed to give $5,000 additional to the Negro Normal school, at Normal, $15,000 to the board of health and a new circuit judge of Birmingham. The bill to prevent running freight trains on Sunday was agreed to by the house committee on common carriers and will be reported favorably. There was no session on Wednesday, the members of the legislature devoting the time to committe work

Will Carry Out Excavations.

Rome, March 1—Senor Rava, minister of public instruction, whose ministry has jurisdiction over the antiquities and excavations, after consultation with Premier Ciolitti, has decided that the excavations at Herculaneum shall be carried out by the Italian government money, although

GEORGIA RAILROAD WILL BE INSPECTED

Commission to Begin the Work On March 6.

SEVERAL TRIPS MAY BE MADE

Will Invite Both Mr. Phinizy and the Georgia Road Management to Send Representatives Along—Will Not Use Private Car Offered by Scott.

Atlanta, March 1.—Inspection of the Georgia railroad will be begun by the state railroad commission, in accordance with the petition of Bowdre Phinizy, of Augusta, on Wednesday, March 6.

On that date all of the members of the commission, Chairman H. W. Hill, and Commissioners Joseph M. Brown and O. B. Stevens, will leave Atlanta at 7:45 a. m., and will, unless their present arrangements are changed, and make their first stop at Covington, which is the first point after leaving Atlanta about which Mr. Phinizy makes complaint.

After a lengthy discussion of the matter the members of the commission decided that they would make as thorough an inspection of the Georgia road as they are able to do with the time at their command in following up the charges and specifications submitted by Mr. Phinizy. They will visit each one of the places designated in his specifications, and make personal inspection, if necessary, for three or four miles on either side. Not only that, but they propose to inspect any other places which may be brought to their attention by Mr. Phinizy or any one else who may be interested in the matter.

The commission decided in the first place that it could not make a complete inspection of the entire 307 miles of the Georgia railroad without walking over every foot of it. That, of course, is out of the question.

In the next place it was decided to invite both Mr. Phinizy and a representative of the Georgia road to accompany the members of the commission on this inspection tour, and it is the hope of the commission that both will accept the invitation.

While the law provides that the inspection shall be made either by the commission or an authorized agent, it says nothing about the employment of such an agent, and no fund is provided with which to pay his expenses. Whatever inspection is made, therefore, must be made by the commissioners themselves.

It will will be noted, also, that the commission has decided not to avail itself of the offer of a special car and engine by General Manager T. K. Scott, of the Georgia railroad, for the purpose of making a trip. The commission prefers to use the regular train of the road, and to get off and do its work wherever it sees fit.

The commission proposes to devote all the time necessary to this inspection, and it is probable that it will not be completed until after several trips have been made.

The commission has the authority to requare that any railroad be put in a thoroughly safe condition for travel and if it is found that the condition of the Georgia railroad is anywhere such as to cause probable danger, it may be stated with assurance that the necessary orders will be issued to remedy the trouble.

Resignation Caused Astonishment.

Panama, March 1.—The resignation of John S. Stevens, chief engineer of the Panama canal, has caused astonishment here. Mr. Stevens refused to discuss his action or the cause, saying the information must come from Washington.

Argentine Trade for 1906.

Buenos Apres, March 1.—Official returns of Argentine trade for 1906 show the imports to be $269,000,000 and the exports $292,000,000. The imports increased $65,000,000, and the exports decreased $30,000,000.

FOR HIS LIFE LEE IS TRIED.

He Is Charged with the Murder of Will C. White.

Jonesboro, Ga., Mch. 1.—Will B. Lee, charged with the murder of Will C. White, is on trial for his life before Clayton county superior court.

It will be remembered that on the 14th of last October H. M. Lee shot Will White, the day operator of the Central of Georgia railway, in the telegraph office, and White died in a hospital in Atlanta the following Tuesday.

White was lying in a hammock when Lee entered the office and attempted to pull the operator out of the hammock. White asked Lee to leave the office, whereupon Lee, it is claimed, drew a revolver and threatened to shoot, asking White if he did not believe he would shoot him. White replied that he did not think he would. Lee, it is charged, stepped back a few feet and fired upon White, the ball taking effect in the abdomen, coming out about the spine and was imbedded in the hard wood of the ticket window near where White was standing.

Dr. Cyrus Strickler, of Atlanta, was the first witness called by the state. He testified as to the cause of the death being a gunshot wound, the range of the ball, etc.

Bankers Will Meet In Macon.

Macon, Ga., March 1.—The Georgia bankers have consented to come to Macon for their annual state convention. The date set is June 5, two days making up the time which will be spent in the session. The agreement to come was the result of the executive committee's action on an invitation sent by Macon bankers. J. R. Reynolds, of Rome; J. K. Ottley, of Atlanta, and L. P. Hillyer, of Macon, were the men who decided to accept Macon's invitation for the convention. All arrangements will be made for a most interesting session, and the local bankers will arrange for the splendid entertainment of the body. There will be at least three hundred bankers attending.

Hole Was Torn Through Heart.

Columbus, Ga., March 1.—Beral Hendricks, the 14-year-old son of Marion Hendricks, a grocer, was accidentally shot and killed while hunting north of Columbus by the unexpected discharge of his gun. A hole 3 inches in diameter was torn through his heart. The gun was discharged while he was going through a wire fence. The wounded boy crawled to the roadside, where he exipred.

Enroute to Jamestown.

Yokohama, Mch. 1.—The Japanese cruisers Tsukubaba and Chitose left at 11 o'clock Thursday morning for Jamestown, Va. They were given an impressive send off. Naval minister, Prince Admiral Saito, Admirals Ito, Inouaye, Togo, the naval attache at the American embassy, Consul General Miller and local Japanese officials were present.

Married Soldiers More Courageous.

London, Mch. 1.—In the course of debate on the new army measure in the house of commons, Major Seely, who had a command in the Boer war, said it was the general experience there that the married soldiers were more courageous than the unmarried ones. A similar condition, he said, had developed in the Russo-Japanese war.

New Site for University.

Washington, March 1.—The Geo. Washington university has appointed an alumni committee and a citizens' committee to raise $400,000 to purchase a new site for the institution. The money is being raised by popular subscription. $85,000 of the amount already has been donated.

Distillery Plant Burns.

Vincennes, Ind., March 1.—The plant of the Old Vincennes Distilling company was partially destroyed by fire Wednesday. The loss is estimated at between $150,000 and $225,000, covered by insurance.

Child Fatally Burned.

Fitzgerald, Ga., Feb. 28.—The 3-year-old son of C. A. Fussell, at Evergreen, was fatally burned by clothing upon him catching fire from a

Big Batch of Repudiated Securities Offered.

RELICS OF CARPETBAG DAYS

New York Syndicate, Headed by Bird Coler, Wanted Salvador to Take $500,000 of the Securities Issued by Reconstruction Days Robbers.

San Salvador, Mch. 1.—The national assembly has refused a donation to Salvador, made by various persons in the state of North Carolina, to the amount of $500,000. In rejecting this proffered donation, the assembly expressed the opinoin that it would be undignified for Salvador to accept the gift.

Simmons on the "Donation."

Washington, Mch. 1.—The donation of the $500,000 of North Carolina bonds to Salvador which was declined by the national assembly of that country, acording to Sen. Simmons, was made by a New York syndicate he says, has purchased almost the entire issue, amounting to many million dollars, at about 2 cents on the dollar. The bonds have been offered to a number of states and independent governments in order that suit may be brought against North Carolina and the validity of the securities passed upon by the supreme court of the United States.

South Dakota Keeps Money.

Pierre, S. D., Mch. 1.—The bill ordering the return of North Carolina of $30,000 obtained from that state in gratis bonds was defeated in the senate by a vote of 25 to 16.

Bond Broker Pleads Guilty.

Columbia, S. C., March 1.—T. J. Gibson, aged 74, a bond broker, has been found guilty of "receiving stolen goods knowing them to be such." Recommendation to mercy was included in the verdict. Gibson was indicted with Daniel Zimmerman, who Monday pleaded guilty to the charge of stealing bonds worth $12,5000 from the state while bond clerk and bookkeeper in the office of the state treasurer. They will be sentenced later.

Killed by Explosion.

Pittsburg, March 1.—An explosion occurred at the Elizabeth furnace of the Jones and Laughlin Steel company, on Second avenue, near Hazlewood Thursday morning. A number of persons are reported injured. A later telephone report stated that one man had been killed and several others badly injured. The explosion it is said was caused by what was known as a "slip."

Famous Tenor Engaged.

New York, Mch. 1.—Oscar Hamerstein announced Wednesday night that he had engaged for five years Giovanni Zanatello, a tenor who has sung at LaScala, for four seasons and who created the part of Pinkerton in "Madame Butterfly." He is a young man, only 32 years old. The arrangement was completed by cable.

Serious Typhoid Epidemic.

Washington, March 1.—The seriousness of the typhoid epidemic on board the battleship Connecticut, is stated in a wireless message to the navy department from Captain Swift, her commander. He stated that of the 35 cases, 32 are in a critical condition.

Will Build New Steamer.

New York, Mch. 1.—The Campagnie Generale Trans-Atlantique, better known as the French line, has announced its intention to build a passenger flyer larger and faster even than LaProvence. The new steamer will be named LaPicardie.

Pays Farewell Visit.

Rome, Mch. 1.—Henry White, the retiring American ambassador, paid farewell visits Thursday to Premier Giolotti and the presidents of the senate and the chamber of deputies, who all expressed the most friendly feeling for the United States.

NEWS OF CITY AND COUNTY CONDENSED

Attorney W. S Broome has returned from a professional trip to Alachua.

N. A. Callison of Spring Park Farm spent yesterday in this city on business.

Mr. and Mrs. D. O. Norfleet of Newberry were among the visitors to this city yesterday.

Mrs. J. S. Haisley has returned to Ocala, after a pleasant visit to Mr. and Mrs. L. C. Lynch in this city.

T. W. Hawthorn of the town which bears his name was among those who came to Gainesville trading yesterday.

The street sprinkler was doing duty yesterday, which has appreciated by pedestrians and the public generally.

E. D. Stanford, special agent of the United States general land office, has returned from an official visit to Montbrook and other points.

Mrs. George W. Dudley and interesting little daughter, Miss Francis, are in the city from Lakeland. They are guests of Miss Hattie Dennis.

E. Schulz, representing the Southern Garanty Company, who has been making his headquarters in this city for sometime, left yesterday for Ocala.

W. A. Edwards of Columbia, S. C., member of the firm of Walter & Edwards, architects, who made the plans for the University buildings, is in the city. He came to attend the meeting of the Board of Control today.

Friends of Dr. Andrew Jolly of Waldo, of whom he has many here, will be glad to learn that he is again enabled to resume his duties, after an illness of several weeks. It is hoped that he will have no future trouble.

Mrs. M. P. Godfrey and her accomplished daughter, Miss Agnes, of Madison, Ga., who are touring the State, spent yesterday in this city. They were well pleased, and may return for several days before leaving Florida.

G. D. Folks of Newtown has accepted position as salesman at the store of Sanders & Earle. It was reported that Mr. Folks intended engaging in the grocery business here, but that report seems to have been without foundation, as he stated to friends that he entertained no such intention.

F. C. Reese, formerly of Tacoma but now residing in Jacksonville, was in the city yesterday. He had started for a visit home, but on his arrival here found the schedule of the Gainesville and Gulf so inconvenient that he was compelled to abandon his trip; requiring too much time to make the same.

J. F. Bunch has received a letter announcing the serious illness of his brother, Dr. G. A. Bunch, in Spartanburg, S. C. Mr. Bunch has written, instructing that the patient he brought to Gainesville as soon as he is in a condition to make the trip, as he believes the change in climate will prove beneficial to him.

Mrs. C. W. Wiggins of Waycross, Ga., who was summoned here several days ago on account of the illness of her mother, Mrs. M. J. Chastaine, returned to her home yesterday, the condition of the patient being much improved. Mrs. Jeffries of Waycross, another daughter who was also summoned, is still here, and will remain for an indefinite period.

Sam Brooks, J. H. Manners and Theo McRae, a trio of nimrods, enjoyed a remarkable successful day at McKinley's pond Thursday, having succeeded in landing fifty members of the finny tribe, fine specimens, in twenty minutes. Owing to the continued drought the pond has been considerably decreased in proportion, and is literally alive with fish at this season.

Pat Hubbard, for a long time identified as The Sun's Newberry correspondent, and who held a responsible position as salesman for C. D. May in that town, has been transferred to Hernando, where Mr. May has opened a store and placed him in charge. Mr. Hubbard made an efficient correspondent, and the management of this paper regrets to lose his services in that direction.

Major E. H. Akley of Vernon, Vt., one of the most prominent citizens of his State, after a few days spent here, left for his home yesterday. Mrs. Akley and daughter, Miss Inez, will remain here as guests of Colonel and Mrs. I. E. Webster for the remainder of the season. Major Akley was delighted with Gainesville, which he declared to be one of the most up-to-date little cities he had ever visited. He hopes to return for a longer period next year.

In writing up the minstrel performance of the Military Minstrels on Wednesday evening, The Sun unintentionally omitted the name of Miss Alice Thomas, the pianist. This is easily explained by reason of the fact that the entertainment was written up by consecutive numbers on the program, and Miss Thomas' name did not appear. She performed excellently, however, and deserves to come at the "top notch" in efficiency. In fact, she really deserves more credit than any individual performer, for she was subjected to a wide range of work, and was kept continuously busy. Miss Thomas upon this occasion showed her ability as a pianist, and the people appreciated her efforts.

IN JUDGE MASON'S COURT.

Young White Man Placed Under Bond for Alleged Larceny of Brass.

Deputy Sheriff C. C. Hardin brought to this city Friday Charles C. Brown, a young white man who has scarcely passed the age of seventeen, upon a charge of stealing brass castings, property of the Atlantic Coast Line, at Archer.

Young Brown was placed under a bond of $300 for his appearance at the next session of the circuit court, which he promptly gave, and was released.

There was another party to this case, said to be a brother of the man held responsible. He was a wee bit of a boy, scarcely more than nine, who was released on account of his youth, as Attorney Layton of the Atlantic Coast Line decided he was too young to prosecute.

Funeral of Mrs. Kent.

The funeral of Mrs. Kent of Georgia, daughter of L. E. Dean, was held from the residence of her father at 9:30 o'clock Friday morning, Rev. T. J Nixon of the First Methodist Church officiating.

The funeral was attended by many friends of Mr. Dean, and there was many floral offerings.

Friends of Mr. Dean sympathize deeply with him in his trouble.

THE CONFEDERATE POSTAGE STAMPS

Some Specimens Are Worth Hundreds of Dollars.

COLLECTORS FIND 144 ISSUES

Many Are Local Stamps Put Out by Postmasters at the Beginning of the War—Single Specimens Only Known of Some Varieties.

The Washington Post of recent date contains the following interesting article in regard to postage stamps issued by the Confederacy during the war between the States:

Among the rarest of postage stamps are homely Confederate issues used on letters transported through the South in the early days of the Civil war. Nearly every one of them is unpleasing to the eye, yet they are treasured specimens in the collections of those fortunate enough to possess them.

At the beginning of the war no regular Confederate stamps were on hand, and the postmasters were authorized to receive money in payment for the postage on letters to be forwarded. Small change was scarce, and in order to facilitate matters postmasters issued local stamps of their own design and sold them to patrons a number at a time. These stamps could thereafter be presented to the postmaster in payment of postage.

Confederate provisional stamps and envelopes include 144 different varieties, and the majority are held at a very high premium. Of many varieties not more than one specimen is known, although it is not at all improbable that other specimens of some of these rarities are now resting on old wartime letters, stowed away and forgotten.

So scarce are the stamps and so rarely do they come up for sale that standard catalogues do not mention the prices at which they are held. When a specimen does come to light it usually changes hands at a private sale, and thus not even expert collectors are always aware of the approximate value of rare issues. In what follows, most of the estimates of the value of the stamps mentioned were supplied by E. M. Carpenter and A. W. Batcheller.

The Goliad Issues.

Leading the rare Confederate stamps are the issues of Goliad, Tex. Eight varieties are known. All are practically unobtainable.

The scarcest are the 5-cent gray and the 10-cent red, with the name "Goliad" misspelled at the top of a square of ornamental type border. In the center is the denomination, either "5" or "10," at the bottom being the word "postage." At the left-hand side is the name of the postmaster, "J. A. Clarke." On the opposite side is the word "postmaster."

Both of these rarities are valued at $1500. Another variety, of the denomination of five and ten cents, without the name of the postmaster, is valued at $1000 when it appears on pink paper, while on ordinary paper a specimen is quoted at $500. The 5-cent and the 10-cent dark blue are likewise valued at $500 apiece.

In the $1500 class is a 5-cent blue stamp issued at Livingston, Ala. It is rather ornamental in pattern. At either side is the inscription, "Livingston Postmaster." In the center, on a shield, is the numeral "5," with a sun and spreading rays overhead, while at the extreme top and bottom are the words "Paid" and "Cents."

Also of the same value is rated the two-cent green gray green stamp of Macon, Ga. This shows the words "Two Cents" in the center of a small rectangular stamp of ornate border. The stamp is unpretentious in design, but is the scarcest of all the stamps issued at Macon.

Three other types were issued at Macon, all of the denomination of five cents. The design was somewhat alike—square frames of typeset border, with the words "Five Cents" in two lines. One design contained the additional words, "Postmaster, Macon, Ga."

New Orleans Stamps.

This in gray blue is worth $35, while in gray green the value is placed at $25. The five-cent yellow with ornamental border is valued at $60, while the five-cent yellow with the plain border is quoted at $140.

Of the six varieties of stamps issued at New Orleans only two are rare, the five-cent red on white paper and the five-cent red on blue paper. At the top and bottom of these stamps is the name of the postmaster, J. L. Riddell.

In the center is the figure "5," above which is the word "Paid" and below "Cents." Surrounding this in two semi-circles, the ends of which almost meet, are the words "New Orleans" in the upper and "Postoffice" in the lower semi-circle. The red on white stamp is valued at $1000, the red on blue at $500.

The Baton Rouge green stamp is one of the very rare specimens. There are several varieties, the general design being that of a square made up of ornamental type border.

At the top of the rare green are the words in small type, "P. O. Baton Rouge, La." Below this, in one line, is "Paid 2 Cents," while at the bottom is the name of the postmaster, J. McCormick.

This stamp is valued at $1000. Two other designs of the five-cent denomination, made up of a border, with the name of the postmaster at the top and the postmaster at the bottom, but without the words "Paid" and "Cents" at either side of the large numeral, the colors being green and carmine, are valued at $60 and $100 each.

A Lucky Find.

A collector in Washington recently found one of the five-cent red stamps issued at Pittsylvania court house, Va. The postmaster at that time was J. P. Johnson, and his name was at the bottom of the stamp, which is elaborate in design.

At the top is the customary "Paid 5 Cents." The value of this rarity, which is the only known variety issued at this postoffice, is $800.

Gonzales, Tex., furnished two stamps which are among the scarcest of the Confederate issue. The design of both showed a small rectangle, with the firm name of "Colman & Law, Booksellers and Druggists," at the bottom being "Gonzales, Tex." Two varieties of this are known, the five and ten-cent, the former colored gold and dark blue, the latter gold and garnet. These are estimated to be worth $1000 each.

The five-cent black stamp issued at Grove Hill, Ala., is of very crude design. It is a little larger than the average of the provisional issues with the inscription "Po At Grove Hill, Ala." In the center is the word "Paid," below in two lines being "5 Cents." This stamp is valued at $1000.

The Helena, Tex., stamp of five cents was most simple in design, being composed of a type of border almost square in shape. At the top is "Helena." A large figure "5" occupies the central portion, at the bottom "Postage." This stamp was printed in two colors, black and buff and black and gray, each variety being estimated to be worth $1000.

The ten-cent yellow stamp of Beaumont, Tex., shows a square of light and dark shaded rule with "Beaumont" at the top and "Paid" in the center. At the bottom in large type is the denomination, "10 cents." This stamp was printed in yellow and pink; either variety is held to be worth $1500. It is supposed to be one of the very rarest of all those issued by the Confederate States.

Athens, Ga., held a five-cent red stamp, a little smaller in size than the ordinary postage stamp of today. In the center was an oval of two lines, in which were the words "T. Crawford, P. M. Athens, Ga." Inside of this was an oval of twelve stars, within which was the word "Paid," and a figure "5" underneath. One thousand dollars is the value of this specimen in red. Stamps in dull purple are valued at but $40.

Six varieties of two, three, five, ten, fifteen and twenty-cent stamps were issued at Marion, Va. All denominations were of a very plain design, which consisted of a type-set border.

At the top is the word "Check," with the word "Paid" underneath. At either side of the stamp are the words "P. Office" and "Marion, Va."

All the rest of the surface of the stamp is blank space. Only black stamps of this variety were issued, and all the denominations are held at the same premium, which is $500.

Salem, Va., had an issue that easily holds its own with the crudest of the type-set designs. This variety is simply a half-inch square box of type, in the center of which is the word "Paid." Underneath this is "5 cts." Unattractive as this example may be, still the collector values this black piece of paper at $1000.

The five and the ten-cent red-brown-green stamps of Victoria, Tex., are each valued at $1000. They show a rectangular frame, at the top of which is the word "Victoria," at the bottom being "Postage." In the center, in very small letters, is the inscription, "J. A. Moody, P. M.," with a large figure "5" underneath.

A Collection Worth $35,000.

Built up of different kinds of type border were the two, five and ten-cent stamps of Uniontown, Ala. At the top of this stamp were the letters "C. S. A." the word "Postage" in the center. Directly below this is the figure "5," inclosed by parenthesis marks, which divide the word "Paid." At the extreme bottom is "Uniontown."

The two-cent green-gray blue, the five-cent green-gray blue and the five-cent green are each valued at $1000, while the ten-cent denomination, of about the same design, but printed in red, is classed among the scarest varieties and is valued at $1500.

Tellico Plains, Tenn., had two varieties of stamps, 5 and 10 cents, both printed in red. At the top of a plain border of rule is "M. F. Johnson, P. M." In the center within a square built up of type border, is "Paid 5," while at the bottom, in two lines, is the name of the issuing office. Both varieties of this stamp are valued at $150.

A 5-cent red stamp of Rheatown, Tenn., is quite similar in design to the stamp last described, with the name of "D Pence, P. M.," at the top. This variety is valued at $200.

Pleasant Shade, Va., issued a stamp made of type border. At the top is "Pleasant Shade, Virginia." Under this, divided by a line of border, is the word "Postoffice," while at the extreme bottom is "R. E. Davis, P. M." In the center of the stamp is the figure "5." This is valued at $150.

Nashville, Tenn., has a rare stamp in the 10 cent green bearing the name of "W. D. McNish, P. M., Nashville, Tenn.," in a circle in the center of the stamp, which includes "Paid 5," surrounded by a smaller circle of eleven stars. This is quoted at $150.

The most valuable collection of Confederate stamps is that owned by H. E. Deats of Flemington, N. J. This includes almost all the rare varieties and also nearly every other stamp issue of the South during the civil war. Mr. Deats is the leading authority on these stamps, and his collection is valued at $35,000.

MISS ADELAIDE NICHOLS

PERIODS OF PAIN

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, have found relief from all periodic suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science.

It cures the condition which causes so much discomfort and robs that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking

Lydia E. Pinkham's Vegetable Compound

Miss Adelaide Nichols of 324 West 22nd Street, New York City, writes:—Dear Mrs. Pinkham:—"If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases. Headache, General Debility, Indigestion, and invigorates the whole feminine system. For the derangements of the Kidneys of either sex *Lydia E. Pinkham's Vegetable Compound* is excellent.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

CONTINUED THREATS MADE.

Assistant Postmaster at Alabama City Ala., Files Complaint.

Gadsden, Ala., Mch. 1.—Joseph S. Franklin, assistant postmaster at Alabama City, who was given a severe thrashing at the plant of the Southern Steel company, a few days ago, has reported the matter to the postoffice authorities at Washington, D. C. Franklin states that he had entered the premises to deliver a special delivery letter and was roughly handled by two special deputy sheriffs, who had ordered him to leave Franklin is a lawyer by profession, and it is alleged that his petty annoyances in his attempts to collect debts from the employees had caused many of them to leave and the company had instructed the officers to refuse him admission. It is also stated that Franklin is the party who prosecuted the case against Miss Grace Robinson, who was placed in jail for a debt of 45 cents, and open threats have been made against him from more quarters than one.

Walker Headed for Orient.

New York, Mch. 1.—A local detective agency engaged to trace William F. Walker, the missing bank treasurer of New Britain, Conn., have stopped at the Portland hotel at Portland, Ore., on the night of Feb. 18, giving the name of W. D. Sether. An acquaintance who knew Walker, but slightly recognized him while he was in Portland. When he left Portland on Feb. 19, he was bound for Vancouver, B. C., and then probably for the Orient.

No Senator Yet Elected.

Providence, R. I., Mch. 1.—The state legislature failed Wednesday to elect a United States senator on the twenty-eighth ballot, the record for United States senatorship contests in Rhode Island. Thirty-two years ago General Ambrose E. Burnside, on the twenty-eighth ballot defeated his seven opponents. The balloting gave Colonel Goddard 41 votes; Colonel Colt 37;; Senator Wetmore 30, and ex-Governor Utter, 1.

Dr. Evans Recalled to Stand.

New York, March 1.—Dr. Evans was recalled when the Thaw trial was re-opened Thursday morning. Mr. Jerome spent twenty minutes in an effort to have Mr. Evans say he had "carefully" read the documents. He would only go on far as saying he had done the best he could. Mr. Jarome told him to go ahead and read them again, and the witness proceeded to do so. Dr. Evans finally stated that several of the letters bore no addresses and were therefore of little use in his attempt to discover whether the writer was of sound mind.

Italian's Throat Was Cut.

Birmingham, Ala., Mch. 1.—The body of Andrie Pileto, an Italian laborer, was found near the coke ovens at Pratt City with the throat cut from ear to ear, and eight knife wounds in the right side. The man had not been robbed and no motive for the crime is known. It is believed the murder was the work of a "black hand" organization, as this is the second mysterious murder among Italians at Pratt City within the past few months. Pileto had been working at Pratt City only two weeks.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SENATOR MALLORY.

"I shall be a candidate to succeed myself in the United States Senate," said Senator Stephen R. Mallory of Florida to a Washington reporter.

For more than a year there has been some speculation as to whether the Senator would again seek election to the Senate, because of illness, which last year incapacitated him from attending to his duties at the capitol for a part of the time, but since last autumn the Senator's condition has so improved that today he looks the picture of health, and he has not missed a single session of the Senate or of any committee of which he is a member since the assembling of Congress. This declaration, however, is the first that he has made in regard to his candidacy.

"I now feel thoroughly able to embark upon a vigorous campaign," continued the Senator, "and shall endeavor to speak in every county in the State. I shall stand upon the record that I have made during the ten years I have served the people of my State in the Senate. That will be the issue, and on it I believe the citizens of Florida will return me for a third term."

Senator Mallory is considered one of the ablest Senators who represents the Southern States. His father, who bore the same name, represented Florida in the Senate in the fifties, and was afterward Secretary of the Navy of the Confederate States. While his father was in the Senate the present Senator often acted as a page, and in that capacity was associated with Arthur Pue Gorman and John M. Wilson. He afterward went to Georgetown College. When he graduated he moved to Pensacola, where he entered upon the practice of the law.

In 1876 he was elected a member of the lower house of the Florida Legislature, and since then has been almost continuously in public life. The Senator is democratic in his tastes, and is one of the most popular men in Congress. He has been persistent in his efforts to further the interests of Florida, and at present is seeking to secure a great drydock at Pensacola.

When the Florida Legislature comes to appropriate money for the State University it should be sure to do two things, to-wit: make the sum as large as the condition of the State treasury can afford, and to entrust its disbursement as completely as may be to the authorities of the school. It is the duty of the Legislature to so promote and foster that at the earliest possible date it will suffice to bestow the higher education on every Florida boy who seeks it. The parents of this State spend tens of thousands of dollars every year for education in other States that might and should be kept at home.—Tampa Times.

The approaching Senatorial election in Levy county is waxing warm. In fact, it is reported that interest in the result is getting red-hot. It is anticipated that about six hundred votes will be polled, and each of the three candidates is putting forth every effort to secure a plurality of them. All the public meetings have been well attended and enjoyed by the candidates as well as the voters generally.

It is better to lose all in the search for good than to be content with the worst.—Van Dyke.

HOW BUILD OR NOT BUILD UP A TOWN.

When Cain had killed off one-fourth of the people on the earth—leaving only three—then went into the land of Nod and builded a city, it is evident that he did not sit around like a lump on a log, and growl about the Nod real estate and people. He was not himself, perhaps, the most exemplary of men, and if he had some reason to emigate from the land of his birth, he did not mope and whine, but got hold of a piece of ground and went to work to do something. The man who could build up a city under such auspices is the kind of material needed in every town; and we will not inquire too minutely into his antecedents, so that he takes hold like a man and be good at last.

But what is more, Cain did not advise his son to "go West and get out of the old dead town." He named the city after him, believed in it, worked for it, brought his goods there and kept his money at home. Does anybody suppose that when strangers came to Enoch (name of the city), with any notion of going into business there, Cain told them it was a "dead old town," that it was established by a murderer, that the water was bad; its merchants all sharks, and its mechanics botches—that the town was not healthy and would "never amount to anything nohow?" Does anybody suppose that when he wanted to invest a few dollars in dry goods he hustled off to the city, or that he only went to the merchants of "Enoch" when he wanted a favor—wanted "a little time?"

Do you think he ever went away from home to get lumber that could be had at better rates in "Enoch" than elsewhere, or to Cincinnati for cheap buggies when the "home manufacturer" could meet every demand with more stylish and substantial rigs?

Do you suppose he went moping around about taxes being too high in Enoch and no one there knowing anything about business? No, sir. He evidently wasn't built that way. If taxes were high, he got up and hustled to increase the value of property, so that there would be greater values to tax. He built houses and encouraged others to do so. If city lots got too low he bought up a dozen or two, scattered here and there, for the double purpose of personal profit and strengthening values. On these he put up plenty of houses at reasonable figures, good ones, too, so that when anyone came to Enoch he did not have to move into an old tumble-down shanty or move on. He improved and beautified every lot, kept the weeds down and set out trees on the lots and in front of them, even where he did not build, thus adding to the value of each lot and adjoining property as well. He found that it did not take so much money to run a comely, well kept town as it did a dilapidated, God-forsaken one, and there were four times the values on which to raise the required money. That's the way he lowered taxation, not by sitting on a stump and howling about it. If a man wanted to run a factory, or some other enterprise, he was not afraid the fellow wanted to make some money, but told him to "sail in and I'll help you all I can. A business that does not make money is no good We want every legitimate business in Enoch to make money, and piles of it."

The primary method of making nominations for city officers is being adopted in many towns of the State. What's the matter with its adoption in Gainesville? Let's have a regular old fashioned primary and require the candidates to come out in the open and show where they stand regarding municipal questions. The contest would prove interesting at this particular time.

SHELLS THAT SWIM.

These Peculiar Fish Are Mostly Confined to Tropical Seas.

The idea of shells being found anywhere else except upon the seabeach or in river beds is a little startling. Yet the naturalist who pursues his work from a ship in midocean can and does collect shells by the thousand at every dip of his net or bucket.

Swimming shellfish are mostly confined to tropical seas. The most familiar is the nautilus, which is, however, not a shellfish at all, but a near relation of the cuttlefish; also it is only seen on the surface at a certain time of the year. The real ocean shellfish are mostly very small. In the Indian ocean they may be seen by millions. One which bears the appalling name of Cavolinia trispinosa has the odd peculiarity of coming to the surface at 6 sharp every evening. Another, the Cleodora tridentata, rises at 7.

Frail as these tiny shellfish are, no storm ever injures them. They all possess the peculiar power of being able at will to sink a few feet below the surface of the sea, and there they remain when gales blow, perfectly safe, and rise again when the weather improves.

The largest of these ocean swimmers is about three inches in length. Almost all are most brilliant in color and their shells far frailer and more glossy than those found upon the seabeach.

Puzzling Measures.

Wheat is sold in Great Britain in twenty different ways—by the quarter, comb, load, boll, bushel, barrel, hundredweight, cental, windle and bobbet. Further confusion is also caused by the fact that the bushel of wheat varies from sixty-two pounds at Birmingham, Gloucester and Taunton, to eighty pounds at Monmouth and Abergavenny, while at Aberystwyth it is sixty-five pounds. Similiarly, the boll weighs three imperial bushels at Newcastle, four throughout Scotland, six at Berwick, 264 pounds at Glasgow and 240 pounds at Hamilton. A quarter measures 496 pounds in country districts and 504 pounds in London.—London Milling.

ORDINANCE NO. 127.

An Ordinance to Provide for the Paving of East Main Street from Liberty Street, thence North to Boundary Street, and for the Cost of Such Work, and Issuance of Special Assessment City Certificates to enable said City to pay the Cost of Such Work Pending the Collection of Special Assessments and Taxes.

Be It Ordained by the Mayor and City Council of the City of Gainesville, Florida:

Section 1—That the Board of Public Works be, and the said Board is hereby authorized and directed to pave, or to contract for the paving of East Main street, from a point where Liberty street crosses said East Main street, thence North to Boundary street, the same to be properly graded and paved with crushed flint rock; such paving shall include curb and gutter, which curb and gutter shall be constructed of granolithic or vitrified brick.

Section 2—That the cost of the paving of said East Main street, as provided in Section 1 of this ordinance, shall be paid as follows, viz: One-third of the entire cost of such paving shall be paid by the City of Gainesville, and two-thirds of the entire cost of such paving shall be paid by the special assessment of same against the property fronting or abutting upon said street in proportion to the frontage of the property fronting thereon. The estimated total cost of the paving of said street is Fourteen Thousand Four Hundred Sixty-three and Twelve One-hundredths ($14,463.12) Dollars; the estimated amount per front foot of the special assessment to be levied upon the abutting property, fronting on said street where the same shall be paved, is Three and Ten One-hundredths ($3.10) Dollars.

Section 3—The special assessment for the paving of said street, as provided in Section 2 of this ordinance, shall become due and payable as fast as the said street is paved, to be paid in the proportion as named in said Section 2, by the owner or owners of each and every lot, piece or parcel of land, fronting or abutting upon said street, where the same is paved.

Section 4—The Mayor and City Council are hereby authorized to issue Special Assessment City Certificates for such amounts as may be due and payable, for the paving of said street, as fast as the same is paved, according to the special assessment against said property, as provided by Section 2 of this ordinance, to be paid, in order to enable said city to pay the cost of the paving of said street, pending the collection of said special assessments and taxes, said certificates to draw interest at the rate of Six (6%) per cent per annum. The amounts to be paid for the paving of said street shall be a lien on the lots, pieces or parcels of land fronting or abutting upon the same, and said lien shall be enforced by suit in equity, as provided by the charter of said city.

Section 5—The City Council shall, as soon as practicable after the completion of the paving of said street, meet, and by resolution fix the special assessment per front foot for the paving of said street, upon the abutting property, in the proportion of two-thirds, as named in Section 2 of this ordinance, said special assessment not to exceed two-thirds of the actual cost of the paving of said street, as provided by this ordinrnce, or, two-thirds of the estimated special assessment per front foot for such work, as stated in this ordinance. Said resolution shall, immediately after its passage, be published one time, in a newspaper in said city. Any special assessment paid within thirty days after the publication of said resolution shall be accepted without interest, and any special assessment not so paid within said time shall bear interest from the date of the publication of such resolution at the rate of one (1%) per cent per month.

Section 6—The City Council shall meet on Tuesday, the 19th day of March, A. D. 1907, at 7:30 o'clock p. m. of said day, in the Council Chamber, and at said meeting shall permit any owner or other person interested in the property against which the special assessment provided for by this ordinance shall be levied, to present their objections to the enforcement of the requirements of this ordinance.

Section 7—All ordinances or parts of ordinances, in conflict with the provisions of this ordinance, be, and the same are hereby repealed; and this ordinance shall take effect immediately upon it's passage and approval.

Passed in open session of the City Council this 15th day of February, A. D. 1907. G. K. Broome,
President of the City Council.
Attest: J. M. Dell, City Clerk.

The above ordinance is approved by me this 15th day of February, A. D. 1907. W. R. Thomas,
Mayor of the City of Gainesville.
Attest: J. M. Dell, City Clerk.

BLOW DEALT TO GOVERNMENT.

Defense Scores in the North Carolina Immigrant Case.

Greensboro, N. C., Mch. 1.—The strength of the defense in the penalty suits against the Charlotte mill men charged with violation of the immigration laws developed when attorneys argued an objection to the introduction by the government of testimony as to promises made by them or Costello, the immigration agent, to the alien witnesses.

Judge Boyd sustained the objection of defendant's counsel, and held that as this is a penal action, the government must show something more than a relation of master and servant—there must be shown a conspiracy to do a wrong. The government seeks to prove that Costello was the agent of Smith & Sargent, and as such, contends that his declarations would be competent as against other defendants.

The ruling is a decisive blow to the government's case. Only two or three witnesses were examined Wednesday. Counsel for the government met in the afternoon to consider a new line of action.

$100,000 Fire at Jackson, Miss.

Jackson, Miss., Mch. 1.—The seed house of the Buckeye Cotton Oil Co. of this place, was destroyed by fire Wednesday. The building was a large frame structure and contained 4,000 tons of cotton seed valued at about $60,000, which is an entire loss, along with the building and machinery worth $10,000. Eight box cars on the track of the Illinois Central railroad loaded with seed were also destroyed, which will run the total loss up to $100,000.

Odessa Situation Improves.

St. Petersburg, March 1.—The consuls at Odessa report to the embassies that the situation there has improved which is attributed to the peremptory orders of prime minister Stolypin. Inasmuch as the measures to repress the disorders were taken in the name of acting governor Gaggleleff it is reported here that General Kaulbars, governor of Odessa has been recalled.

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for *free* booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and, through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine OF KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Saw Mill Boiler Bursts.

Claxton, Ga., March 1.—M. J. Stubbs's saw mill boiler was blown up Wednesday, instantly killing one negro and fatally scalding another one, and seriously scalding Mr. Stubbs, owner of the mill. A great deal of excitement was caused by the explosion and all the stores and bank closed until the extent of the damage could be ascertained.

Arms for Nicaragua.

New Orleans, Feb. 28.—The shipment of considerable quantities of arms from here to Nicaragua is delayed by an order received by Collector of Customs McCall from the United States treasury department. This order makes the delay temporary pending an investigation. The arms are said to be shipped by private concerns.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. W. McCollum & Co.

Girls Bitten by Mad Dog.

Gainesville, Ga., Feb. 28.—May Whitfield, 12-year-old daughter of D. J. Whitfield, 12-year-old daughter of Frank Rogers, were bitten by a mad dog in the upper part of Hall county. The dog was killed by Messrs. Whitfield and Rogers have left for the Pasteur institute in Atlanta with their afflicted daughter.

G B Burhans Testifies After Four Years

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

HAPPINESS.

The Difference Between the Sexes In This Important State.

One source of women's happiness is to be found, we think, in their love of detail. They enjoy every detail of social life. They love the minutiae of their work. They do not love it as a man loves his, for the sake of an end. They look close at what they are doing, and they do not look forward. They take pleasure in their children as they are. A defect, even though it be a serious one, destroys their pleasure in them far less than it destroys that of a man. They are not constantly oppressed by the thought of what that defect will mean in the future. If a woman is by nature apprehensive her fears apply for the most part to little things. If a man is apprehensive he fears when the fit is upon him the debacle of heaven and earth. For women time goes a little slower. They take pleasure in each jewel of that mosaic which makes up happiness and are not fretted because the pattern is not complete. Of this quality they have, no doubt, the inevitable defects—much brilliance, little grasp and a tendency to frivolity. They are apt to fritter away their lives and minds on little things. They become engrossed with the details of play as well as the details of work. Men no doubt have more opportunities of keen pleasure than women have, but these opportunities are short lived. The happiness of the moment they are less fitted to take. The difference between the sexes in this particular might, we believe, be thus summed up: A man is happy whenever he has anything to make him happy, but a woman is happy whenever she has nothing to make her unhappy.—London Spectator.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

Remarkable Vision.

An old woman who had been in the infirmary with sore eyes told a neighbor that the doctor took out her eyes and scraped them with lances. "Nonsense, woman," replied the other. "Ye shouldn't believe all ye hear. The doctors would only be stuffing ye." "Oh, but ye know it's no use saying that, for I awakened up out of the chloroform and saw both of my eyes lying on the table!"

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the roots and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Hotel, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
